Wiredscore Platinum certification

Buildings certified with **WiredScore Platinum** guarantee top-level connectivity, future-ready technological infrastructure, and resilience against digital obsolescence.

100% fiber optic coverage

maximum speed and availability for users, minimizing interruptions and downtime.

future-oriented technological design

ability to integrate new solutions and services without costly renovations.

adaptability to new technologies

reduces obsolescence risk and maintains long-term property value

the team behind the project

The owner of Mile Campus is **Gmp**. Founded in 1979, Gmp is one of Spain's leading real estate holding groups.

The company's vision incorporates **sustainability as a strategic value**, including both environmental sustainability and sustainability in the value creation process, through quality and innovation in management, processes, and products, with a particular focus on **promoting the health and wellbeing of users** of its buildings.

customer-focused approach

Gmp develops asset management centered on client satisfaction. Every property under Gmp's management has a dedicated **Portfolio Manager and an on-site Facility Manager** who provides personalized client support.

Additionally, aligned with its strategic values of excellence and people orientation, the **Customer Experience team drives** active listening of both corporate clients and end-users, designing a personalized optimal experience and fostering a sense of belonging to the **Gmp Community**.
